

# **SOMETIMES ACCIDENTS HAPPEN WHEN YOU DON'T EXPECT THEM**

**SADLY WE CAN'T ELIMINATE THEM  
BUT WE CAN HELP ELIMINATE THE  
LENGTH OF TIME IT TAKES TO GET  
BACK TO NORMAL**

[www.rossenvironmental.co.uk](http://www.rossenvironmental.co.uk)

Ross Eliminator Absorbent is a mix of cotton waste and millions of oil eating bugs. It is eco-friendly, biodegradable and renders the waste completely non hazardous. When Ross Eliminator is introduced to oil the hydrocarbon eating microbes activate and quite literally the mess can be brushed away within minutes, all you need is a broom. It is an example of bio remediation at its best. Easy to carry and very cost effective, Ross Eliminator can save hours of dirty, time consuming and frequently dangerous work. Contact Ross for a demonstration now.

Manufactured in USA for Ross Environmental Ireland

Ross Environmental Products Ltd. Lisle Avenue, Kidderminster DY11 7DH
